

SS_KISS
Keep It Simple & Smart

WHY US?

Simple&Smart

is the result of the idea of a few Italian dentists, tired to spend a lot of money for complex and too much technological dental units.

You should choose us because we **think different!**

We are introducing a different vision of dental unit, by making a unit that combines reliability, **simplicity** of installation and maintenance to a good price.

We reduced the amount of technology in our equipment to the minimum, thus ensuring the machines reliability in operation.

This results in less occurrence of technical incidence and therefore, less costs for maintenance and assistance and a lower cost of purchase.

SO, WHY SPEND SO MUCH WHEN YOU CAN HAVE THE **SAME RESULT** WITH OUR **SS_KISS**?!

SIMPLE inside

less assistance need
easy installation

LESS electronics

for a

MORE

reliable **unit.**

That's why we are
what we are!

Less is **More!**

Simple&Smart
INSIDE

Configuration

what's better for you?

You can choose which configuration of the instrument tray is more suitable for you and the spittoon you prefer. No additional cost!

HANGING TYPE

TOP MOUNTED

CERAMIC SPITTOON

DARK GLASS SPITTOON

STANDARD CONFIGURATION

- Ergonomic chair

- 15 function control panel
- 10 function control panel on assistant tray
- 3 programmable positions
- X-ray viewer
- LED lamp Maia (from 8.000 to 35.000 lux) _ Made by **FARO** - Italy
- Electric micromotor with LED illumination, brushless system, 40.000 rpm, internal spray _ Made by **TKD** - Italy
- Pedal with horizontal lever movement _ Made by **FARO** - Italy
- Rotatable ceramic white or dark glass spittoon
- Rotatable water unit
- Silicone, autoclavable pads for trays
- Disinfection system
- Left armrest
- Cushions in PU leather. High Quality PU production process. Anti snatch
- Doctor stool in PU leather
- Installation available also for left-handed doctors

Features

Ergonomics

The **SEAT** and the **BACKREST** have been designed to improve the comfort and the stability of the patient on the chair. The particular ergonomics allows the doctor to work in a more suitable position. Working in 3 o'clock and 9 o'clock position will be easier.

The structure of the backrest is in metal and it is very thin, this way the doctor can get closer to the patient and have a better working position.

The design of the **chair base** grants a wider movement of the seat. It is thin and allows the chair to reach a lower position.

Structure

The **water unit** can rotate to allow the doctor to work even at 3 o'clock and a better positioning of the assistant. The internal structure of the water unit is made in aluminum.

The SS_**KISS** is equipped with a disinfection system. There is a tank inside the water unit for the disinfection of the water lines. It can be filled with a proper product and activated by a special switch located inside the water unit, this to avoid any possible accidental activation during the daily work.

2 separated **airtight filters**, one for each suction cannula.

The SS_**KISS** is suitable also for **left-handed** doctors. Adapting the unit to left-handed users is very quick and easy to do. Just mounting the bar that supports the water unit on the opposite side to make the whole unit ready for this particular purpose.

Customize your dental unit

SS_KISS can be equipped, according to your needs, with the addition of many options. The internal simplicity of the machine remains the same but, following your requests, we can customize your unit in order to make it **perfect** for you!

We have a special team which can fulfill those requests that lie outside the standard production process. Therefore it is possible to adjust ergonomic and functional aspects of the unit according to your requests.

If you have a **WISH**, we try to make it **REAL**!

Options

available

FIBER LEATHER

More comfort with seams! The standard cushions in PU Leather are manufactured without seams as they can be cleaned more easily. On the other hand, the **Ultra Fiber Leather** seat, grants and higher sense of comfort to your patients. There is a standard range of colors but you can also customize it choosing within a range of more than 200 colors.

EXTRA STOOL

An extra stool can be suitable for your assistant. Different models are available to meet your requests and your needs.

RIGHT ARMREST

The right armrest is not included in the standard configuration as many doctors prefer not to have it. But, if you want to increase the comfort of your patients, you can add it to your customized chair.

Options

Lamps

LED OPERATION LAMP _ ECO

Economic LED lamp with sensor, 30.000 lux.
Made by **SIMPLE&SMART** - Italy

Options

Media Kits

ENDOSCOPE KIT

- **Monitor** 24 V, color, 15", with glass protection _ Made by **SIMPLE&SMART** - Italy
- **Intraoral Camera** Sony CCD 1/4, 28 image saved on receiver, auto focus, LED illumination _ Made by **SIMPLE&SMART** - Italy
- **Arms Set** for monitor installation _ Made by **SIMPLE&SMART** - Italy

MONITOR and **CAMERA** are installed on the dental unit. The arms allow the installation of the KIT. The camera is connected by cable to a docking station located behind the monitor. 28 images can be saved on a receiver. The Endoscope KIT is the PERFECT SOLUTION to show to your patients your work in real time.

SUPERMEDIA KIT

- **Panel PC** Installed on the unit, touch screen, wireless mouse and keyboard _ Made by **MSI**
- **USB Camera** Connected to the panel PC _ Made by **CARESTREAM** - France
- **Arms Set** for monitor installation _ Made by **SIMPLE&SMART** - Italy

PANEL PC and **CAMERA** can be installed also separately, but the BEST SOLUTION is to use them together. The PC is touch screen and it works as a normal computer. Internet connection, RVG system, endocamera and all management programs can be controlled directly from your operation site. The combination with the camera allows to get and save all images you need.

Options

Instruments Cart

In replacement to the instrument tray you can have your SS_KISS with the instrument cart or purchase the cart independently from the unit. The cart has the same equipment as the instrument tray:

- 5 instruments air turbine hoses with: 1 of 3ways syringe, 1 scaler EMS compatible with 5 tips included, 3 cordons (2 with optic fibre, 1 without optic fibre) midwest type.
- 15 function control panel
- X-ray viewer

Options

Stand Alone Unit

The SS_KISS can also be configured as a STAND ALONE CHAIR. Available with or without the instrument cart, to allow you to use the chair for the most suitable purpose.

Options

Suction Systems & Compressors

Simple&Smart can also supply a full range of compressors and suction systems manufactured by us or by leading brands such as **CATTANI** and **DURR**. These companies are famous for their quality and reliability, which is why Simple&smart has been cooperating with them for years. Our aim is to grant to the customers the best service and products possible, so we carefully select our partners to reach this goal. S&S is now developing its own range of high quality compressors and suction machines.

Separation Systems & Valves

Based on the suction system installed, we can study for you the MOST SUITABLE solution. We can instal air and amalgam separator, selection and mignon valves to make your system as much independent as possible. All these solutions are manufactured by the most important brands in this fiels such as **CATTANI**.

MINI SEPARATOR
Used to separate water and air when a dry suction machine is installed.
Made by **CATTANI** - Italy

MIGNON VALVE
For centralized suction systems, when more than a unit is connected to a single suction machine.
Made by **CATTANI** - Italy

Options Maintenance

The concept is always the same, grant to the customer the best service possible.

The purpose is giving to the customers all the necessary products for the ordinary maintenance of our dental unit.

Our **CLEANING KIT** contains all the most suitable products to clean and sanitize our SS_KISS, filters, silicone parts, etc., that can be replaced in case of need.

CLEANING KIT

Includes:

- 2 SUCTION FILTER,
- 1 BASIN FILTER
- 1 WEAK SUCTION HANDLE
- 1 STRONG SUCTION HANDLE
- 1 SET OF SILICON PADS.
- 1 PULY JET by CATTANI ITALIA To clean the suction tubes, kill the bacteria, avoid to have bad smells inside your clinic and avoid any tubes obstruction.
- 1 AQUA PLUS to clean all the internal system of the unit through the disinfection system installed inside the unit. It prevents the formation of microfilm inside the tubes and so, any possible damage to the small holes of the instruments.
- 1 ESENFIX of MICROZID to keep the dental unit surface clean avoiding possible damages to the leather and the sensible plastic parts. It is alcohol free.

Company

Production

The production process is the heart of our company, and for this reason we FOLLOW, with particular care every stage, starting from the choice of materials, paints and components to the assembly and final control. Each unit, in fact, is subjected to a careful double check, carried out by our specialized technicians, during assembly phase and before shipment. Our ISO 9001 and ISO 13485 standards ensure that these processes are actually carried out and respected.

Stock

We want to be extremely FAST in deliveries, so we always have in stock several units, in large part, already assembled and READY to be configured according to our Customers needs. All the necessary parts and all the options are available in stock and we can complete the assembly of the unit and arrange the delivery in a few days.

Other Services

WARRANTY EXTENTION

The standard warranty on our dental units covers a period of 1 year but, if you want, you can extend the warranty period **up to 5 years**.

Shipment

Separate Wooden Boxes

The shipment can be arranged according to each customer's needs. We usually ship the unit in a SINGLE WOODEN CASE, but, if required, we can ship the unit in TWO SEPARATED boxes, in order to get the delivery to the clinics easier.

The two separated wooden boxes are smaller in size and less weighted so the download from the truck is easy even without a lifter and the reduced dimensions allows an easy storage while waiting for the installation.

Certifications

Certified Technicians

To ensure a PERFECT installation and a proper after sales assistance service, Simple&Smart certifies all the distributors' technicians. After attending a specific training, an Enabling Certificate is issued to the technician, this procedure has been introduced in order to provide a safe and reliable product to the Customers and a professional and precise technical support.

ISO & EC Certificates

All our procedures, are compliant to the severe ISO standards. The ISO 9001 and ISO 13485 certification joint to the EC CERTIFICATE of Conformity, guarantee the quality of our products and services.

Product Label

The most important TECHNICAL INFORMATION on the product are clearly indicate onto the label applied on each unit.
